

**BURLINGTON
TRAIN ROBBED.****PASSENGER TRAIN HELD
UP IN MISSOURI.**

The Express Car Cut Loose from the Train, Run up the Track a Mile and Safe Blown, but Little of Value Secured.

Leavenworth, Kan., Sept. 22.—A report reached here to night that train No. 41 on the Burlington was held up at Amazonia, Mo., by four masked men. The baggage and express cars were cut from the train and run about a mile up the track, where the express safe was blown up, but it is not thought much of that was valuable was found. The message states the passengers on the train were not molested.

St. Joseph, Mo., Sept. 22.—Four masked men to night held up the westbound Burlington and Missouri River train five miles north of this city. The safe in the express car was dynamited and the car wrecked. Officials of the road say that the safe contained little money. Other reports say it contained \$5,000 to \$10,000 in money. Everything in the safe was taken and the men escaped on horses. A posse is in pursuit. Not a single shot was fired. The train was stopped by means of a red light. The engine and express car were uncoupled and run a half mile further on, where it was dynamited. The entire train was brought back to the city and a new train made up, which left at 1 o'clock.

According to meagre reports the instant the train stopped two robbers climbed into the engine and with drawn weapons compelled the engineer and fireman to obey orders. One of the men uncoupled the engine and express car from the balance of the train. The party then climbed into the cab and engine and cars were run up the track. An explosion followed. As soon as the safe was dynamited the men rushed to the wrecked car. It is asserted they did not get a cent as a result. The train was filled with passengers for the west and the hold-up created a panic.

The hold-up was witnessed by a farmer, who telephoned to the nearest town. Citizens armed themselves and when they reached the scene the bandits were gone. A special train with armed officers was sent to the scene and the vicinity searched, but no trace of the robbers was discovered.

Omaha, Sept. 22.—The World-Herald's story of the Burlington hold-up is that as soon as the train stopped the bandits demanded that the messenger open the door of the express car, but he refused. They then preyed the door open and climbed into the car. The messenger began shouting, but was overpowered and the robbers dynamited the safe. In the explosion one of the robbers was badly hurt. The passengers hearing the explosion rushed to the express car and the robbers seeing there were too many to attack fled into the fields and escaped.

BAKER INVESTIGATES.

Springfield, Sept. 22.—Dr. E. F. Baker, inspector of the state board of health, reported to day his investigation of the sanitary conditions in the cities of Quincy, Pittsfield, Virden, Belleville, East St. Louis, Alton, Jerseyville, Collinsville, Edwardsville, Madison and Litchfield. He reports the sanitary conditions in each city good, with the exception of Edwardsville, where a large ravine exists, in which the sewage of the city empties. Samples of water of each city will be analyzed.

FOUND DEAD BODY.

Cleveland, Sept. 22.—The badly mutilated body of Miss Olive Rayl, aged 22, was found early to day lying across the Lake Shore railway track at the entrance of Gordon park. Investigation by police developed that the girl had been murdered and the body placed on the track where a train had cut it in two. Miss Rayl lived with her brother, Dr. L. I. Rayl, in Glenview, a suburb. She was handsome and highly respected. The case is shrouded in mystery.

The coroner and police believe Miss Olive Rayl, whose mangled body was found on the Lake Shore tracks to day, committed suicide. It was thought early in the day she had been murdered.

FEDERATION OF LABOR.

South Bend, Sept. 22.—The report of the secretary of the State Federation of Labor shows the membership increased 2,000 during the year and that 1,400 unions are affiliated with the state organization.

Washington, Sept. 22.—Information was received here that Mrs. Frank W. Rant, daughter of James K. Jones, of Arkansas, chairman of the national Democratic committee, died suddenly of heart failure at Deer River, Minn., while camping out with her husband.

FORGER CAPTURED.

Burlington, Iowa, Sept. 22.—Charles Hays, with several aliases, holding from \$2,000 to \$3,000, was charged with forgery, was captured here to day.

THINK TREATY DEAD.**State Department Give up Hope
of Favorable Action By
Colombia.**

Washington, Sept. 22.—When the state department closed to day at 4 o'clock it was agreed the Panama canal treaty was dead, although eight hours yet remained within which the Colombian congress might take affirmative action upon it. Nothing, however, had been received during the day, either from Minister Beaupre at Bogota, or from Herran, Colombian charge here, which gave the slightest hope of a favorable issue. Report is current here that the Colombian congress in secret session has clothed President Marroquin with full power to negotiate the treaty. If this report should turn out to be true Marroquin, who is counted a friend of the treaty, could proceed untrammelled by fear of future reckoning with his congress. In any event President Roosevelt must now take the next step. He can elect to proceed under the Spooner act and take up the Nicaragua route or can allow matters to drift for the present in the hope a way may yet be found to straighten out the present difficulties in the path of the Panama route.

Acting Secretary of State Adee remained at the department to night in order to be on hand to act promptly on any information which might come from Bogota concerning the canal treaty. Up to 9:20 no word had been received.

GEN CHAFFEE'S REPORT

Washington, Sept. 22.—The annual report of Major General Chaffee, commanding the department of the east, urges that after the adoption of a uniform it shall be adhered to without constant changes and alterations. Chaffee states the time seems opportune for the adoption of a pack in lieu of blanket roll for foot troops. He describes the present condition as discreditable. A blanket roll in his opinion is an inconvenient thing. He also recommends a cartridge belt be carried on braces in order that the weight may be transferred to the shoulders. There were seven officers and 1,438 men tried by general court martial during the year. Two officers and 73 men were acquitted. The number tried for desertion was 38; tried by summary court 16,342, of which 2,548 were convicted of drunkenness.

DECISION RENDERED.

Washington, Sept. 22.—The interior department has decided in favor of Indian allottees in the long contested case of Mrs. Lydeck and two children, Indians, against white settlers for possession of 240 acres of land constituting a part of the township of Cass Lake, Minn. Owing to the value of the land the case has attracted considerable attention. It was contended by parties who sought title to the land allotted to these Indians that the latter did not occupy such relation to the Chippewa tribe as to qualify them as allottees under the law.

THE ODD FELLOWS.

Baltimore, Sept. 22.—The sovereign grand lodge of Odd Fellows to day unanimously elected Gen. M. A. Raney, of Marengo, Iowa, commanding general of the Patriarchs Militant for a term of four years. The report of the committee on appeals was adopted and many resolutions introduced asking that the grand decoration chivalry be conferred on certain members of Cantons in good standing.

This evening there was a reunion of the past grand representatives at Masonic temple. Past Grand Sire A. Curtis Cable, of Covington, Ohio, presided; Edwin Warfield, of Maryland, delivered the address. During the evening a dress parade was given by patriarchs militant at Fifth regiment armory, in which all visiting and local cantons participated. Later exemplification of the militant degree took place behind closed doors.

WILL STRIKE.

Minneapolis, Sept. 22.—A certainty of a general strike in the Minneapolis flour mills to morrow was established to day when the millers issued a statement severely criticizing the flour loaders for making unjust and unreasonable demands and expressing determination of the millers to close their mills rather than grant eight hours a day at a ten hours wage scale.

ILLINOIS CONFERENCE.

Bloomington, Sept. 22.—The central Illinois conference of Methodist churches opened a two week's session to day at Monmouth. The conference has jurisdiction over the smaller cities of the state, the territory including about fifty counties. Bishop C. C. McCabe, of Omaha, will preside. Rev. Henderson Ritchie delivered the opening address to night.

COAL COSTS MONEY.

New Haven, Conn., Sept. 22.—The annual report of the New York, New Haven & Hartford railroad published to day contains this interesting statement: That because of the coal strike the additional price paid per ton on quantity used during the year made coal cost the company \$1,000 in excess of the cost the previous year.

**CURTIS JETT
CONVICTED****OF MURDERING THOMAS
COCKRELL.**

The Jury Renders a Verdict Fixing His Punishment at Death—Jett Not Affected By His Conviction.

Cynthiana, Ky., Sept. 22.—After a trial lasting eight days the jury in the case of Curtis Jett, charged with the murder of Town Marshal Thomas Cockrell at Jackson, July 21, 1902, this evening rendered a verdict of guilty and fixed punishment at death.

The jury retired at 2:34 p. m. When the jury entered the court room after agreeing on a verdict quiet reigned for a few moments. Jett's mother had gone away earlier under the impression that no verdict would be reached and a verdict of death coming about two hours after the jury was out was a surprise to everyone in the court room. The reading of the verdict did not affect Jett, but his brother was very much distressed. Just previous to the jury reaching an agreement Judge Osborne, thinking they would not reach a verdict to day, sent for them, intending to call off the session for the rest of the day. But the jury sent back word an agreement had been reached and it would be ready to report within five minutes. When the verdict was read the jury was polled.

The death sentence was then read to Jett by the clerk, after which Jett was given over to the custody of deputy sheriffs. A motion for a new trial will be filed to morrow morning, and if the motion is overruled he will appeal the case to the court of appeals.

This has been the second trial of Curtis Jett on the charge of murder. The first trial was for the murder of J. B. Marcum at Jackson, Ky. Jett and Thomas White were sentenced to life imprisonment.

One juror stated that for four ballots eleven jurors voted for the death penalty and one for a life sentence. All agreed on the fifth ballot.

KILLED BY DYNAMITE.

Harrisburg, Ill., Sept. 22.—At the New Davenport mines, south of this city, seventy-five pounds of dynamite was accidentally exploded this evening, killing James Smith instantly, fatally wounding Tom Carpenter and seriously wounding two others.

MASTER BREWERS.

Philadelphia, Sept. 22.—At to day's session of the convention of the United States Master Brewers' association reports of delegates from nearly every part of the United States showed there was marked increase of consumption. The convention adjourned after selecting St. Louis as the next place of meeting. The present officers will serve for another year.

TRIAL OF CURTIS JETT.

Cynthiana, Ky., Sept. 22.—The taking of evidence in the trial of Curtis Jett for the murder of T. P. Cockrell was completed this morning and closing arguments begun.

DEATHS.

Chicago, Sept. 22.—Hon. Alton Smith Sherman, who was chosen mayor of Chicago in the eighth year of its corporate existence, died at his home at Waukegan to day, aged 92.

Washington, Sept. 22.—The executive board of the Federation of Labor to day considered many matters affecting that organization. Governor Hunt, of Porto Rico, was in conference with the board on labor matters in the island.

TOURISTS KILLED.

London, Sept. 22.—Four tourists who were climbing Seafell mountain in Cumberland to day fell down a precipice and were killed.

FISHERMEN DROWNED.

Dublin, Sept. 22.—Ten fishermen were drowned to day by the capsizing of a boat in Killim bay, near Waterville.

LEADER CAPTURED.

Santiago, Cuba, Sept. 22.—Rural guards last night surrounded and captured Juan Lopez, leader of the recent insurrection, and another man.

THE UNITED STATES SQUADRON.

Berlin, Sept. 22.—The United States squadron under command of Rear Admiral Evans arrived at Kiao Chou, German colony, on the east coast of China yesterday.

MURDER INVESTIGATION.

Elyria, Ohio, Sept. 22.—The Reichlin murder case was taken up by the grand jury to day. The hearing promises to be a lengthy one. Some seventy or more witnesses have been subpoenaed and authorities declare no effort or expense will be spared to run down the Ansteth Reichlin murderer.

BOY SHOTS BROTHER.**Thirteen Year old Lad Accidentally Kills Boy Six Years His Junior.**

Litchfield, Sept. 22.—John Ulrick, a 13-year-old boy, accidentally shot and killed his 7-year-old sister at Mt. Olive Sunday afternoon. The affair happened while the parents of the children were away from home. The boy became frightened and fled and has not been heard from.

SUITORS IN FIERCE FIGHT.

Harrisburg, Ill., Sept. 22.—Levy Stimson and Benjamin Parks came to blows over a girl and Stimson received injuries which may prove fatal. Both are suitors for the hand of Miss May Henderson. Stimson and Miss Henderson were out for a walk near the West Side school building when they met Parks. Angry words passed between the two men, which terminated in a fight in which Parks struck Stimson over the head with a club, inflicting injuries from which he may die. The girl's screams brought assistance, and Parks fled. He was arrested later, and is being held to await the result of Stimson's injuries.

TO FIGHT COMBINE.

Kansas City, Sept. 22.—A meeting of promoters of the Independent Packing company, incorporated recently to fight the alleged packers' combine, was held here to day. The company it capitalized at \$5,000,000. One hundred thousand shares of stock at \$50 each will be issued. The board of directors elected to day include C. F. Adams, A. Watkins, Nebraska; Noah Newbanks, C. J. Buell, South Dakota; I. C. Campbell, Paul Russell, T. M. Walker, George Plume, Kansas; F. W. Flato and N. H. Gentry, Missouri; John W. Springer, Frank Benton, C. F. Martin, Colorado. The first meeting of the board will probably be held in Denver on the first of October.

AT LOGGERSHEADS.

St. Paul, Sept. 22.—Negotiation between officials of the Great Northern railroad and firemen and engineers are practically at a standstill. Officials of the road have denied the wage requests of men and rescheduled grants made at previous meetings. Grand Master Hannahan, of the Locomotive Firemen, and J. J. Stone, grand chief of the Brotherhood of Engineers, are here for a conference this afternoon. Both these men informed the Associated Press that unless this meeting brought about a change of attitude of railroad officials, a poll of men of the entire system would be taken in forty-eight hours.

BEAVERS' CASE.

New York, Sept. 22.—Counsel for George W. Beavers were informed at the conclusion of adjourned hearing to day in Beavers' case that Beavers must be produced before Commissioner Hitchcock immediately to answer two additional complaints received against him upon two indictments recently returned against Beavers in Washington for alleged conspiracy to defraud the government in connection with State Senator George E. Green and Bundy of the Time Clock company of Binghamton.

CHRISTIAN CHURCHES.

Atlantic City, N. J., Sept. 22.—Over a thousand delegates were in attendance at the opening session of the national conference of Christian churches to day. The address of welcome was made by Mayor F. P. Stoy, responded to by President Carroll D. Wright. Other addresses were made by Rev. Thomas R. Slicer, chairman of the council; Mrs. Emily Fairfield, secretary; Charles W. Wendte, of Boston, secretary of the International Council of unitaries. Deviation from the original program was made when thirty minutes were devoted to discussion of negro educational questions in the south.

CANNOT AGREE.

Kansas City, Sept. 22.—The credentials committee of the International association of Bridge and Structural Iron Workers, who were in session most all night, wrestling with the question of sustaining President Buchanan's action in expelling Union No. 2, of New York city, of which Samuel J. Parks is a member, were unable to present a report at 11:30 o'clock. No attempt was then made to call the convention to order. Parks predicted to day a split in the association if the convention refused to recognize his union.

Later it was stated the committee would not likely finish its work to day and the convention would not reconvene until to morrow.

INVASION EXPECTED.

New Orleans, Sept. 22.—Advice of expected invasion of the Nicaraguan republic soldiers from Spanish-Honduras to enforce that country's contention that Nicaragua in giving concession to a Pittsburg, Pa., syndicate granted rights on territory which belonged to Honduras, reached the city via the American steamship Breakwater from Puerto Cortes, Spanish-Honduras.

SERVIAN ELECTIONS.

Belgrade, Sept. 22.—The elections yesterday to the skupshtina resulted in unexpected victories for extreme radicals, of whom sixty-five were elected. All party leaders were elected. The skupshtina will meet in extraordinary session Sept. 27, when the ministry will resign.

CORNER STONE LAID.

Bloomington, Sept. 22.—The corner stone of the Platt county court house at Monticello was laid to day by the grand lodge of Masons. The principal addresses were delivered by General Modillon, of Chicago, and Owen Scott, of Decatur.

SAILED FOR ROME.

New York, Sept. 22.—George von L. Meyer, United States ambassador to Rome, sailed for Europe to day on the steamer Kaiser Wilhelm II.

**MACEDONIAN
SITUATION.****PREMIER PETROF INTER-
VIEWS ALI FERUH BEY.**

Authorities Say that Within Forty-eight Hours the Question of Peace or War Will Probably Be Settled.

Sofia, Sept. 22.—Within forty-eight hours the question of peace or war will probably be settled, according to authoritative opinions here. Premier Petrof had an interview to day with Ali Feruh Bey, at which the whole situation in Macedonia was discussed. As result of the conference much better feeling prevailed and confident hopes are expressed that a satisfactory adjustment may be reached. This view is strengthened by a report from Constantinople to the effect that the council of ministers is within measurable distance of an agreement in the chief points at issue. The premier complained of the situation created by arrival at Burgas of thousands of destitute and starving refugees from the district of Losengrad. After the discussion, understanding was practically reached that Turkey should guarantee the safe protection of the refugees and take steps to re-instate them in their homes.

The general effect of these conferences in Constantinople and Sofia has induced much more hopeful feeling here. The war ministry has taken steps to strengthen the Bulgarian frontier forces and it is reported troops will occupy all commanding positions, thus making it almost impossible for bands to cross the frontier.

Bulgaria answering the porte's recently manifested disposition to consider direct understanding, demands general amnesty and stop persecution of Bulgarians in Macedonia; administrative reforms; insure safety of highways and equality of Christians and Musselmans before courts; reform of taxation and gendarmerie and provide for personal security; that burned villages be rebuilt with government assistance; refugees repatriated; organization of Bulgarian schools and churches. Also demands that in event of agreement, guarantee for execution of reforms be forthcoming, and if not Macedonia continue agitation.

London, Sept. 22.—Turkey is showing signs of yielding to the Bulgarian demands and it is evident some sort of negotiations are in progress with an object of averting war.

London, Sept. 22.—The Sofia correspondent of the Times affirms that a singular communication has been made to the Bulgarian government from Count Lamsdorff, Russian foreign minister, who observed that in the opinion of Count von Buelow, German chancellor, Turkey has the right to send troops into Bulgaria to preserve order.

A GOOD RECORD.

Indianapolis, Sept. 22.—The tournament of the Indianapolis Gun club, which began to day is the largest ever held in the central west. There are 125 guns here and 20,000 targets were broken to day. The feature of to day was the performance of C. M. Powers, of Decatur, Ill., who broke 100 straight in the practice shoot. He also made perfect scores in events 2, 4 and 5, fifteen targets each.

TO RECLAIM ILLINOIS LANDS.

Greenville, Ill., Sept. 22.—Judge Joseph Story, at Vandalia, has rendered a decision establishing a drainage district comprising 15,000 acres of land along the Okaw bottom in Fayette county, and involving an expenditure of about \$9,000. If this project is a success it will be the means of reclaiming about 100,000 acres of land in the central part of Fayette county.

BURIED IN PINE BOX.

Grand Rapids, Mich., Sept. 22.—Incased in a plain, unpainted pine box that did not cost more than \$2.50, the body of Professor Max Wright, instructor of modern language at Leland Stanford university and the son of a wealthy parent, was buried to day. This was in accord with the request of the deceased, who considered lavish burials barbarous and economically wrong.

ACCIDENT TO LUKE DUNN, SR.
Beardstown, Ill., Sept. 22.—Luke Dunn, Sr., of Sangamon Valley, aged 50 years, fell down the back stairs at the home of his son-in-law, Edward Sudbrink, thinking at the door into another room, and fractured his right leg in three places—at the hip, above the knee cap and one place between these. He is confined to his bed.

FRUIT DEALER KILLED.

Davenport, Iowa, Sept. 22.—Leo Limporopolis, a Greek fruit dealer, was killed here to day by H. J. Montgomery, of Davenport, a business man, who found the Greek quarreling with another man. Limporopolis was knocked down by Montgomery and died soon afterward of concussion of the brain. Montgomery was arrested.

Daily Journal 10c per week.**CARDINAL
GIBBONS.****THE EMINENT PRELATE AR-
RIVES IN NEW YORK.**

Speaks of the Pope and the Italian Government and Says No New Papal Policy Will Be Suddenly Inaugurated.

New York, Sept. 22.—Cardinal Gibbons arrived here to day from Rome on the Kaiser Wilhelm Der Grosse and was enthusiastically welcomed by a large delegation of priests and laymen from Baltimore and ecclesiastical and personal friends from this city. He will remain in New York until Friday, when he will go to Baltimore. The cardinal had a pleasant voyage and said the ocean trip had recuperated his strength, which had been greatly taxed by a severe spell of fever he suffered due to intense heat in Rome during the progress of the convalescence.

New York, Sept. 22.—Concerning probable relations between the new pope and the Italian government, Cardinal Gibbons to day said: "The pope as a patriarch of Venice was on very friendly terms with the king, but what a man does when he is a mere private in ranks, so to speak and when he is elevated to power and responsibility are wholly different things. What Pius X will do in this matter is of course unknown. You may rely on it, however, there will be no sudden change. These things are not done in a way to attract attention. If a change does take place it will be gradual change; friendliness between the Vatican and Cardinal will grow. Pius X is not a patriarch of Venice and while he may retain his friendly feelings for the king, these feelings will cause no sudden change of papal policy, but will probably in course of time bring about improved relationship and better state of things. The king, I believe, is influenced by very kindly feelings toward the pope."

Asked about the possibility of another American cardinal being appointed, Gibbons answered: "There will be another cardinal. It would not surprise me to see a number of American cardinals augmented in the near future. But there is absolutely no truth in the cable statement that the pope purposes to create a patriarchate for the occident. The statement is ridiculous."

DELIGHTFUL TRIP.

John A. Ayers and Party Return from Trip to Nova Scotia and Other Eastern Points.

John A. Ayers, president of the Ayers' National bank of this city accompanied by his daughter, Miss Helen Louise, and his son-in-law Prof. W. H. Garrett, returned Monday from a month's pleasure and business trip spent in New York, Boston and Nova Scotia. The party met with many very delightful experiences and the trip was thorough and enjoyed.

They left Boston on the steamer Yarmouth for Digby, Nova Scotia, where several days were spent with hook and line catching salt water fish. The place is a noted resort for fishermen and the party were very successful, catching in one day thirty fish that averaged between four and six teen pounds. Wolfville, in the Acadia province, made historical Longfellow in his poem "Evangeline" was next visited, and as the country here is full of historic spots, they were many interesting things to see. The people are simple in their taste and very conservative. There is a Baptist seminary in the town, which has a population of 3,000 people, and there is a deep religious feeling in the place, as was evidenced by a prayer meeting which Mr. Ayers attended, where there were 200 people present. The town of Wolfville is situated in the celebrated Gaspean valley and the natural beauty of the scenery is indeed wonderful. The main industry here is sheep raising, which is done on a very extensive scale, and fruit raising, where particular attention is paid to the cultivation of apple orchards, great quantities of the fruit being exported annually to England. Cape Blomidon was also visited, and the scenery here, too, is fascinating. Many beautiful residences, and the particular attention paid to the laying out and maintaining of splendid roadways serve to show the progressive spirit of the people, who almost without exception are a high grade class of citizens, resembling the New England people in many of their customs and tastes.

The party next visited Halifax, the capital of Nova Scotia, which is a bustling city and where they had the pleasure of meeting General Parsons, an officer in the English service who has recently returned from the South African service, where he participated in the Boer war.

The only unpleasant experience of Mr. Ayers during the trip was on his return across the Bay of Fundy, where he was violently seasick, and was subjected to all the unpleasantness known only to those who have passed through that experience.

In coming down the St. John river the party became acquainted with Rev. Mr. Stephenson, a Christian church minister, who upon learning that they were from Jacksonville, inquired about Miss Mary Tanner and Miss Mary Upham, whom it had been his pleasure to meet when they ladies were in Nova Scotia some years ago. Beyond the fact of finding mutual acquaintances, the incident serves to show that people of this city are extensive travelers and are known in and know of many parts of the world. During the latter part of the trip, Mr. Ayers was compelled to go into the mountains of New Hampshire to ward off an attack of asthma. Late he visited New York city, where he renewed an acquaintanceship of long standing with ex-Secretary of the Treasury Lyman J. Gage, and met many other personal friends and business acquaintances.

Mr. Ayers feels greatly benefited by his trip, but he is glad to be home again and feels that Morgan county, after all that he has seen, is indeed unrivalled in its manifold attractions.

TEAM RAN AWAY.

As a party of young people were returning to Farmingdale in Sangamon county Tuesday evening, from the Nunes-Smith wedding, the team they were driving became frightened near Old Berlin and kicked themselves loose from the surrey, to which they were hitched, and ran away. The team belonged to the groom, Mr. Robert Nunes, and was being driven home by a friend, as Mr. and Mrs. Nunes left on the midnight train to Kansas City on their wedding journey. The team ran only a short distance before they broke away, and this circumstance was indeed fortunate for the occupants of the surrey who had driven with Mr. Nunes from Farmingdale to be present at his marriage. The residence of Holland Smith was near by and the parties procured a team from Mr. Smith and proceeded on their journey. When the runaway team was found this morning, one of them was lying dead in the road and the other was grazing near by.

Charles E. Wheeler, Springfield Margaret McCool, Jacksonville.

WHY SOME PLAYS

ARE SUCCESSFUL

Frequently people wonder why one play makes a success and another a failure, more especially when the unsuccessful production seems the superior of its more favored contemporary. The secret lies in this, while the play that has failed to "make good" has the greater literary merit it lacks the necessary requirements to make it palatable to the masses. The author has sacrificed the tastes of the public at the shrine of art, and failure is his penalty. Herein lies the strength of Elmer Walters' successful production, "A Thoroughbred Tramp." The public has been given what they want, and have responded so thoroughly to day at the head of the class of attractions. This excellent attraction is booked at the Grand Tuesday, Sept. 24, on.

ILLINOIS COLLEGE.

First Chapel Service Will Be Held This Morning at 9 O'clock.

The first chapel service at Illinois college will be held this morning at 9 o'clock, and while there will be no special program, all friends and alumni of the institution will be welcome at the exercises.

This is the first year of the new regime, when Illinois college becomes a co-educational institution, and the prospects for a large attendance are very flattering.

It is the purpose of President Barnes to get right down to business and lessons will be assigned and the classes organized with as little delay as possible. The freshman class promises to be the largest in the history of the institution and now numbers over forty.

There are already forty-five boarding pupils in academy hall and the students hail from several states, which shows the effect of the systematic effort that has been made recently to extend the knowledge of the institution and the territory from which it draws its quota this year is a wide one and will serve to good purpose in making the college known in the future.

The facilities for day and boarding pupils are all that could be desired and everything on the hill in academy hall have been put in first class condition.

IN THE COUNTY COURT.

Lucinda Long, by Layman & Morrissey, solicitors, has filed in the circuit court her bill of complaint asking for a divorce from Samuel S. Long, to whom she was married May 1, 1892. Complainant also asks for suit of injunction restraining defendant from incurring or disposing of forty-five acres of land in Nortonville and other personal property where complainant formerly resided with her husband previous to her removal to Jacksonville. Injunction is granted.

Laura Kolmeyer, of Jacksonville, through her solicitor, Thomas F. Smith, has filed a bill of complaint in the circuit court asking for a divorce from Frederick Kolmeyer, to whom she was married July 5, 1899, alleging desertion.

FINE DISPLAY.

The beautiful display of hand-painted china, announced at J. L. Kephthill & Co.'s yesterday, arrived on time and was visited and admired by a great many yesterday. The collection is large and very artistic and a good many orders were taken for the elegant articles exhibited.

FROM NEBRASKA.

Hon. Ensley Moore returned Sunday morning from northeast Nebraska. He was there at the time of the frost to which so much reference has been made of late. The general opinion of experts was that little damage was done and that in some cases the corn was probably benefited. This is in accord with Mr. Moore's observation and judgment. In the immediate Missouri valley, between Blair and Omaha, the corn mostly seemed untouched by the frost. If nothing happens later the crop of Nebraska corn will be one to rejoice the farmer and to help the consumer.

Mr. Moore was accompanied home from Omaha by his daughter, Miss Emily Ansley Moore, who has been visiting in Lincoln and Wayne for the past three months.

EAST SIDE TUESDAY CLUB.

The East Side Tuesday club met with Mrs. J. W. Waller at 829 Superior avenue Tuesday afternoon. This was the first meeting of the year in the club work proper and a large number were present to begin the club program, which takes up the study of Holland. Mrs. J. M. Miller read a most interesting paper on the "History of Holland to 1500," covering that period in the fullest manner.

"The Federal System and Norman Invasion," was the subject of the paper read by Mrs. J. K. C. Pierson and a history of the early government, together with the changes that followed in later years was most carefully reviewed in this article.

"The Dutch Crusaders" furnished material for a very instructive paper by Mrs. Mary Knollenberg, and this completed the first program of the society work which will be a thorough study of the country of Holland together with her customs and people.

MEREDOSIA.

Mrs. Alice McLain and daughter Beulah left Monday on the Bald Eagle for St. Louis, where they go to make their future home. The good wishes of their friends go with them.

Mr. and Mrs. Joe Heiser, of Kampsville, were in attendance at the funeral of their niece, Miss Fairy Brackengruy.

The funeral services over the remains of Miss Fairy Brackengruy were held Friday afternoon at the residence on Main street, Rev. A. J. Christy, pastor of the M. P. church at Bufile, being in charge of the solemn service. The attendance was very large. Music was furnished by a choir consisting of Misses Emma Schaeffer and Ida M. Jones, Dr. F. C. Yeck and Bert Ford, with Mrs. Will G. Looman at the organ. The bearers were: Chas. Enke, Garrett Steinberg, Chas. Leonard, Harry Lake, Jr., John Steinberg and Mr. Beebe. After the services the remains were followed to Oakland cemetery, where they were gently laid to rest by loving hands beneath a canopy of beautiful flowers. The floral tributes were many and expensive, which attested to the high esteem in which the deceased was held. The six flower girls were: Misses Rena Geiss, Minnie Ritcher, Minnie Schaeffer, Maggie Cady, Mabel Nolan, Mabel Hyatt, Minnie Williams and Jessie Arnold. Miss Fairy, the beloved daughter and only child of Mr. and Mrs. Chas. Brackengruy, was born in this city July 1, 1883. Her death occurred very suddenly last Wednesday morning at 12:30 o'clock. Fairy was a favorite with both old and young, for to know her was to love her. She had a host of friends who greatly bemoan her sudden departure, but it is a consolation to know that her pure spirit has taken its flight to that home where there is no suffering nor pain. She is survived by her parents, other relatives and a large number of friends. Fairy had been for more than a year the able assistant of her father at the local telephone exchange for the Illinois Telephone company, and the excellent service she was giving will be greatly missed by the people along this line.

ASSOCIATED CHARITIES

Reopens Its Office in New Lo-

cation.

The Associated Charities has re-opened its office in Farrell & Co.'s bank building, room 3. The hours are from 9 to 11, as heretofore. There is a demand for school children's clothing and articles sent to the office will be given where they are needed.

The work will be carried on during the coming winter along lines advocated by the organization from the start, namely: to combine and develop all the charitable resources of the community for the relief of poverty, the prevention of pauperism and crime, and the raising of the standard of the community. The society endeavors to collect and spread knowledge on all subjects connected with the administration of charity and to promote needed legislation and the enforcement of laws touching the objects of the society.

It is a mistake to suppose that associated or organized charity anywhere has a new personal or a new science. Its basis is work or service; its charity is the charity of love for fellowmen, but guided by intelligence.

MINISTERS' LOCATION.

Among the Methodist ministers in whom Jacksonville are more or less interested, the Journal mentions the following and their location the coming year: Henry Wilson, assistant pastor, Vermont Street church; J. For Commissioner.
LUTHER A. BARR, of Arcadia.

The Courier endeavors to make great capital out of the so-called disensions in the recent Republican convention. The fact is, neighbor, the Republicans don't wear party collars nor bosses' collars either but are free men and do their thinking themselves. If they don't agree with the administration, they are not afraid to say so. If they decided to do a thing, they do it and after they have exchange opinions freely they get together and fight the opposing side like men. Much unlike the convention preceding it in this respect, was the Republican convention. There was no need of a Democratic convention at all. The few bosses had decreed that a certain man should be named for commissioner. Did it do any other man any good to run? Not much. Like lambs the delegates went into the convention, meekly doing the bidding of the bosses, who then informed them their services were no longer needed and they went home. The people will have something to say regarding the respective merits of the two candidates.

ILLINOIS EDITORS' OPINIONS.

Carlinville Democrat: Let those who oppose the nomination of Governor Yates get down to business and give some reason, if they can, why he should not be nominated. Generalities are the resort of a coward. The brave man knows why he favors or opposes a man.

State Topics: The taxpaying, order-loving Republicans of Illinois are for Yates and will never submit to the dictation of the trust press of Chicago. The yawping of the paid hirelings of the Chicago papers is no longer heeded by the Republicans outside of Cook county. The people down state read and think for themselves, and act for themselves when the proper time eventuates.

Chester Tribune: In a letter to the editor of the Tribune, referring to the probabilities of his becoming the Republican nominee for governor, Warden E. J. Murphy of the Joliet prison writes: "I must assure you that I am not a candidate. I am heartily in favor of the re-nomination of Governor Yates. His administration has thus far been characterized by efficiency, honesty and economy."

DURBIN.
Messrs. Edwin Gibson, Charles Gibson, Roy Rawlings and Miss Harriet Gibson have gone to Indiana to again take up work in DePue university.
Mrs. Nellie Buckner, of Jacksonville, spent last week with her parents, Mr. and Mrs. David Rawlings.
Samuel Darley returned Monday from Quincy, where he had gone last Thursday to attend the M. E. conference.
Rev. Mr. Browning went from the conference to Iowa to visit his son. His pulpit on next Sunday will be supplied, however.
Mrs. Z. T. Jones is quite ill.
George and James Oxley have been spending some time in Macoupin county (spending the dwelling house on their farm).
Robert Smith, Jr., made a short visit home last week.
The many friends of Mrs. Lois Laverick will be glad to learn that she is recovering rapidly.
Albert Gibson, of Providence neighborhood, has gone to Colorado in hopes of recuperating his strength.
J. N. McCormick and family are riding in a bright, new double-seated conveyance.

AN EDITOR'S OPINION.

Our readers will be interested in the statement by Mr. John Edmonds, editor of the Daily and Weekly Courier at Lincoln, Ill. He says: "I have been a sufferer from constipation and have used Dr. J. C. Williams' Pink Pills for Pale People. I found it a safe and effective, without griping or nauseating effects common to similar remedies." 25c, 50c and \$1.00 bottles sold by Lee P. Albright.

PEARY'S POLAR QUEST.

Explorer's Plans to Pierce Region of Eternal Silence.

FEELS CONFIDENT OF SUCCESS.

Lieutenant Tells How and Why He Will Go and How He Proposes to Accomplish His Purpose—Hundred Days' Dash to Solve Geography's Last Tremendous Secret.

When James Creelman, the staff correspondent of the New York World, interviewed Lieutenant Robert E. Peary, who is to make another attempt to reach the north pole, he asked him the following questions: "Why do you want to go to the north pole? And if you get there what good will you have done?"

The intrepid explorer replied in part: "I want to finish my life work. I want my country to have the honor of solving the last great problem in geography—to succeed where all others have failed."

"I have often been asked what good there was in discovering the north pole. I admit that there are no dollars and cents in it—that is, I can see none. From a strictly utilitarian standpoint, though, it must be remembered that in getting to the north pole by the Smith's sound or American route I must travel through an area that covers practically all the missing links of arctic knowledge."

"This route lies through Baffin's bay, Smith's sound and the Kennedy and Robeson channels to the north shore of Greenland. There we will be on the shore of the central polar basin, on land a hundred miles nearer to the pole than any other known place in the circuit of the pole. It is a sloping shore, with shallow water off the coast. To the right is the still unsurveyed gap in the northeast coast of Greenland. To the west is a similar gap in the western coast of Greenland. These are the only missing links in the coast lines of the higher arctic regions. Another important service can be rendered to geographic and hydrographic science by soundings on the direct line to the pole to determine fully or partially the character of the polar basin. When these points are filled in it can be said that arctic exploration is practically complete."

"As for the scientific side of the voyage to the pole, no man can tell what a fact is worth until he knows that fact. Every step we take into new territory eliminates ignorance. The human race should never rest content until every part of the land and water surface of the earth has been visited. All geographical mysteries must be solved. It is impossible to say what the value of a seemingly useless fact may be until it has been combined with the rest of the world's knowledge."

"I have seen a statement in the newspapers that the last yacht race to defend the cup cost the American syndicate something like \$900,000. I don't know whether that is true or not, but for a quarter of that sum we can get to the pole. I do not ask for more than \$200,000."

"It is important that my next expedition shall be supported well. I expect to make it the last. Now that the United States government has officially approved of the work, I hope that the national indorsement will result in interesting some man or men to give enough money to insure success."

"I intend that this shall be an American expedition—American in money, in ships and in men. I feel confident that I can reach the north pole now, and I am determined that the undivided credit shall belong to my country."

"But you have been confident of success before?"

"Yes, but I have gone nearer to success each time. The last time I did what I did in spite of my ship. I have never had a ship of sufficient power. All I want is a ship that will take me to the north shore of Greenland at the right season. I will answer for the rest."

"I know the problem well. I know what I have to encounter, and I know just what I need to insure success. I have made longer journeys, counting air line directions, than any other explorer. When my ship reaches the north shore of Greenland I shall be 400 statute miles, or 420 nautical miles, from the pole. The distance to be covered is seven degrees. I have already gone a hundred miles of that distance in a straight line. There is nothing to be seen but ice. What there is at the pole no man knows. In four separate journeys I have traveled greater distances than from Greenland to the pole. My ship was so poor that I could not start out far enough north. In the spring of 1900, my best trip, I covered an air line distance which if I had started from the shore of Greenland would have carried me beyond the pole and back again."

"The situation is easy to understand. If I can get the right kind of a ship—and if I get money enough I know how to get the ship—I can sail on July 1, say, and get to Cape Sabine by the end of the month. I can stay there until September gathering walrus meat, native help, dogs and whatever else I need. I can winter on the shores of Greenland and have everything ready for the start in the fall. The rest of the year I will be at the pole. I have already demonstrated that I can travel more than the distance in the same conditions. But the trouble was that I

did not start from the shore of Greenland. I did not have a ship that could take me there in time. That is all I need now. The rest of the problem has been worked out in practice. There have been four ships on the coast I wish to reach—the Alert, Polaris, Proteus and Discovery. All I ask for is a ship that will take me the 350 miles that lie between Cape Sabine and the north shore of Greenland."

"I speak with some confidence because I have had more experience in the arctic, have traveled more and lived longer there than any other white man. I know just where to find the reindeer, the musk oxen and the arctic hare. I know every foot of the coast from Cape York to Cape Hecla. I have spent so much time among the natives, have traded so much with them, have given them so many arms and other necessities, have worked so much with them, that I can command the utmost resources and energies of the whole tribe of Whale sound Eskimos."

"Having set forth my plans and the reasons I have for feeling confident of success, having received the official indorsement of the United States government and being willing to make any sacrifice necessary for success, it now rests with the patriotic men of my country to furnish sufficient means to make it certain that the honor of discovering the north pole shall belong to America."

MAYOR LEEDS' AMBITION.

Why Stamford's Executive Will Study Politics at Yale.

Mayor Charles H. Leeds of Stamford, Conn., has decided that his education is not complete and has determined to take a three years' postgraduate course at Yale, says the New York World. He will study political economy and kindred subjects to fit him not only for his present position, but to enable him to assume a higher office if he should be called to it.

In Connecticut politics a Yale degree goes a long way toward making a successful candidate. The first mayor of Stamford, who bore the same name as the present mayor, although he was no relation to him, could write Ph. D. after his name. The present mayor aspires to do likewise.

Mayor Leeds is very wealthy, having inherited a large fortune from his father. He was born in Stamford and received his preliminary education in Kings school, subsequently taking a course at Princeton, from which university he was graduated in 1893. He is thirty years old.

The mayor does not intend to allow his work at Yale to interfere with running the business of the city. He has planned to be a commuter between Stamford and New Haven, beginning with the end of September. The mayor said to a reporter:

"I believe it is the duty of every man to get all the advantages of education he can. I have the time and the inclination and there is no reason why I should not do it, especially as it will not interfere with my position as mayor. A man can't know too much. That's my experience, and I am very fond of study. I go to Yale because I have a choice between Yale and Columbia, and Yale is nearer. I feel that I am losing ground. There is not enough for me to do as mayor, and I want full occupation. There are days at a time when I don't have to go to the mayor's office, and I can improve myself to be ready for any emergency when my term ends. I expect to make what education I may add to my store useful to me and to the people I come in contact with."

RIGHT FORM FOR WOMEN.

Noted Modiste, Back From Europe, Says They Must Look Slang.

"The baggy blouse waist and the extreme dip belt must go. The woman who would be well tailored must be willing to abandon the style that gives her a fullness under the arms and puffy gatherings at the waist line. She must be willing even to look narrow rather than to be bloused. To be slim and snug and trim is to be the correct form this winter," Mme. Baker, president of the National Dressmakers' association, said the other day.

She illustrated her remarks by black-board drawings for the benefit of several thousand modistes and their guests at the Lexington hotel in Chicago, says the New York Herald. Mme. Baker, who has just returned from a trip abroad, says she knows whereof she speaks.

"The three-quarter length suit coat for women is absolutely not being shown in Paris," continued Mme. Baker. "Long coats are not to be seen except for carriage wear and the theater. The properly dressed woman of fashion will appear in a costume that is very close fitting. She will resemble an eel in slenderness."

PAPER UMBRELLAS NEXT.

Striking Novelty That German Firms Intend to Introduce.

Several German firms in Saxony are making arrangements for manufacturing hats and umbrellas on a large scale from paper, says the Berlin correspondent of the New York World. The paper will be prepared by special process and for the hats will be more or less porous to assist ventilation and be extremely light.

These firms hope to flood the world with their paper hats and umbrellas, which will be sold at extremely low prices. They also anticipate that they will be able to introduce working paper hats in the way of decorations of men's hats, which in these times are far too costly and are not. Their umbrellas and hats are all likewise to be light and strong.

ALL OVER THE HOUSE.

The Beauty and Lasting Qualities of Inlaid Linoleums.

Inlaid linoleums are to other linoleums what Persian rugs are to ordinary worsted carpets, the patterns infinitely more beautiful, their lasting qualities five times as great. The materials used in their composition are the same as in other linoleums, finely ground cork mixed with oxidized oil and subjected to enormous pressure.

But instead of the patterns being printed on the surface they are solidly pieced in and go right through to the back. You can wash and you can scrub it, scrape your boots over it day in, day out, or lay it out in a blistering sun, and the pattern will not, for it cannot, come off; neither can it fade.

This makes it particularly desirable for public places where there are heavy travel and frequent cleaning.

The manner of making them permits the reproduction of patterns resembling parquetry flooring, china tiling, mosaic work, oriental rugs, brussels carpet, practically any kind of a design that taste dictates, for the material absorbs and retains the most delicate colors as perfectly as wool does.

Fruit Rolls.

Stir one tablespoonful each of butter and sugar and one teaspoonful of salt into one pint of scalded milk. When lukewarm add one-half yeast cake dissolved in one-fourth of a cup of water and three cups of flour or enough to make a drop batter. Let it rise until light, then stir in one-half cup of butter creamed with one-half cup of sugar and enough more flour to make a stiff dough. Knead until smooth and when light roll it out thin and cut into squares about four inches. Lay on the center of the dough half a peach, well drained, or four or five stewed prunes or any preferred fruit which has been stewed and sweetened. Bring the corners up to the center and press them together lightly, leaving spaces where the fruit shows. Lay them close together and when risen again till light bake in a quick oven. This recipe is equally good for winter when canned fruit is used.

Stained Glass in the Home.

Among materials used in interior decoration stained glass and its substitutes have been quietly but surely finding a foothold in professional and popular taste, says the Wall-paper News. Stained glass is usually linked in the mind with churches, and an imitation of stained glass somehow leads up to the idea of hotel barrooms. Nothing is more erroneous. Today stained glass and its substitutes are being used with excellent results in the decoration of houses. The effect of the light shining through it is something that can be gained in no other way, and for windows, door panels, transoms, interior partitions, fire screens, lamps and a dozen other ways it is used to great advantage.

This will necessitate the removal of the latter from this county, where he has been a resident for a number of years, and where he has a host of friends who will regret to see him leave.

FORMERLY LIVED HERE.

The following item, which appeared in the Montana Daily Record, speaks of the experiences of one who is well known to many here, having formerly lived in this city, and his wife at the present time is visiting at the home of Mrs. Orilla Jones on South Main street, who is an aunt.

Mr. Watt.

Lombard, Sept. 18.—A large wild cat that had been playing havoc with the chickens of the village for a month, was killed within 100 yards of the depot yesterday. The cat had become so bold that the noise of trains when switching did not seem to bother him in the least. He had been seen several times in the door yards here, but always managed to make his escape, until this morning when he got in front of a shotgun held by R. W. Watt, of Fargo.

Mr. Watt, who was on his way to Helena, while waiting for a train, took a shotgun and started out for a stroll. The first thing he saw that looked like game was this "bob-cat." The animal managed to elude Watt for a little while and the hunter was almost ready to give up the chase, when he again caught sight of the cat. He killed the animal.

Mr. Watt brought his trophy to the hotel, had it photographed and then had the animal skinned. The skin will be mounted. The cat weighed twenty-five pounds.

An elegant line of street hats arriving daily at Herman's popular and unrivaled center of fashion.

HE CURED THE LITTLE GIRL.

Mr. Herman Muller, senior member of the firm of Muller & Leykom, extensive lumber and general merchants at Polar, Langdale Co., Wis., says: "My little girl was troubled with a bronchial cough and we tried several remedies without satisfactory results. We finally gave her a few doses of Harts' Honey and Horehound, which quickly cured her." Harts' Honey and Horehound is a never failing cure for all throat and lung troubles to which children are subject. It is very pleasant to take and the absence of any deleterious or dangerous drugs makes it especially valuable for small children. 25c, 50c and \$1 bottles. Sold by Lee P. Allcott, druggist.

CRUSADE ON MORMONS.

John Alexander Dowie's Plans to Invade Utah Next Year.

Mormonism is threatened with extinction more absolute than could be attained by any mere legislation, says the Chicago Record-Herald. The innermost fortress of the Mormons at Salt Lake City is to be attacked next year by the legions of John Alexander Dowie. "Conversion to Zion City tenets" will be the slogan of the Dowie battle array.

"The restoration hosts will assuredly crusade to Utah in 1904," said one of Dr. Dowie's deacons the other day. "From Chicago and the neighboring states we will move 3,000 or 4,000 strong. In the west Zion has many followers, and they will be expected to join the army."

The founder of Zion City anticipates a decidedly lively campaign against the serried ranks of Mormonism. He thinks that the trend of affairs will be anything but dull. No secret has been made by Dr. Dowie of his longing to contrive a conversion of the Mormons, and the deeds that they hope to do in the Utah stronghold are constantly being discussed by the citizens of Zion.

After the inquiry of Chicago and New York, Dr. Dowie, it is understood, believes Salt Lake City to be the worst of remaining wicked American cities. Salt Lake's superlative badness, according to Dr. Dowie, is based not so much on the actual vice there holding sway or on the number of crimes committed, but rather on the practice of Mormonism, which is particularly abhorrent to Zionists.

But the expedition to Salt Lake is only a beginning. It is nothing more than a first battle in a campaign. San Francisco has been charted as the scene of warfare in 1905, and on it the crusaders will move at that time. It is said that all the cities on the continent which Dr. Dowie thinks in need of moral reform and regeneration have been listed, and they will be attacked one by one and year by year in due order of their immorality. It is possible that a foreign expedition to China will be arranged, Dr. Dowie taking intense interest in the Chinese. When the San Francisco warfare is waged particular attention will be given to Chinamen.

TO UPLIFT CRIMINALS.

The New British Home Secretary Plans a Great Work.

With the exception of those who are taking the chief parts in the so-called "fiscal controversy" now raging in England no member of the British cabinet has been more talked of lately than the recently appointed home secretary, the Right Hon. Aretas Akers-Douglas, says the London correspondent of the Washington Post. In his capacity as head of the department of the government which deals with criminals Mr. Akers-Douglas recently laid before parliament a scheme regarding the treatment of wrongdoers which, he hopes, will solve a problem that has been for years agitating the minds of his predecessors. He is going to try to reform the criminal classes so as to make them both within and without the prison citizens. Hitherto prisoners, irrespective of their antecedents, who were sentenced to penal servitude—that is, any term involving confinement for over two years—were put to such unprofitable occupations as picking oakum or breaking stones. The secretary feels that all prisoners are not hopeless cases; hence his new scheme.

Young men serving their first period are to be kept under special observation, and if it is found that the criminal instinct is not strongly developed in them they will be taught some useful trade, which may help them to become respectable citizens on their release. Habitual criminals will also be put to some useful occupation by which they will no longer be a burden on the taxpayer, and if they show no disposition to reform they will be kept in prison for an indefinite period. This feature of the scheme is drastic because it will need a special act of parliament to put it into operation.

Fashions in Furs.

It is time to begin to think of your furs for the winter season. Last season's squirrel was a strong rage. It will not be discarded this season, says the New York Evening Journal. Chinchilla fur will be seen a great deal. Possessors of minkskin should feel cheerful, as this fur is to be most fashionable, especially in the shape of boleros with pelerine collars and as carriage wraps mixed with sable. Another style of carriage wrap is full length, having a sort of compromise between the Japanese sleeve and the 1830 pelerine for a sleeve. Sable and ermine are beautiful in this wrap. The minkskin fur is to be worn. The Eton cape of astrakhan or chinchilla must not be forgotten, as it is quite new and modish.

Urges Use of Wicker Work Coffins. Dr. C. A. Lindley of New Haven, Conn., secretary of the state board of health and professor emeritus in Yale Medical college, at a meeting of the Medical association the other day urged the adoption of wicker work coffins instead of metallic caskets, says the Chicago Record-Herald, so as to insure a quicker decomposition of the dead and absorption by the soil, which, after a suitable time, would be again fit for use.

Plan to Increase British Trade. A project in course of development for a coming exhibition of British industries which is to make a tour of the British empire, says the London Globe. A specially chartered ship will be fitted up and sent on a protracted voyage, and by this means it is hoped that the claims of British manufactures will be locally brought home to the attention in all parts of the world.

BORN ON TRAIN.

Wabash Conductor and Baggage Office in Absence of Physician.

Carrollton, Sept. 22.—Conductor R. L. Carter and Baggage Office E. E. Foster of the western division of the Wabash were unwittingly and unwittingly launched in the profession of midwifery yesterday morning on train No. 21 between Carrollton and Kansas City. A woman, a Mrs. Williams, was on board the train going to Kansas City to join her husband and shortly after leaving Carrollton took violently ill.

She was removed to the baggage car where the stretcher, carried as part of the train equipment for use in cases of personal injury, was improvised as a cot. When the conductor understood the situation he wanted to put the woman at Northbourne, but she had only \$1.40 in money and begged permission to be allowed to continue her journey.

The conductor and baggage men were new as obstetricians, but did their duty nobly. The child was born as the train was pulling into Missouri City, the fourth station out of Kansas City. After some search a physician was found on the train who relieved the two railroad men of much of their worry and responsibility, but no woman could be obtained to attend her.

The child was named Lena Wabash Williams, the "Wabash" being due to the influence of Conductor Carter at the christening. A collection was taken on the train for the woman and \$9.40 was readily contributed by the passengers. As the train reached the station the conductor was handed another dollar by a passenger with the remark: "Here, give this to the baby." The husband of the woman, with an ambulance, met the train at the station in Kansas City, and she was quickly removed to her home, where she was reported as doing nicely.

HOME MARKETS.

There is nothing of any special importance to notice. Attention is devoted to fall crops and not much stock is moving to the Chicago market.

Oliver S. Green, with Shannon Bros. & Co., Union Stock Yards, Chicago, reports for Monday, Sept. 21, as follows:

Cattle—Receipts 25,000. Some choice light and medium fat steers were firm to a shade higher, with the bulk of others about steady. The market was in such shape that a too liberal run would further depress values. Some choice heavy weight cattle sold fully as low as the close of last week. Extreme top of the market was 6c for seven choice 1317 lb. steers. Western and Texas cattle dull and weak; butcher stock, dull to a shade lower; stockers and feeders unchanged.

Hogs—Receipts, 26,000. The general market was 5 to 10c higher, but closed dull for all but choice light, which brought \$6.30 to \$6.35, with some butcher lots at \$6.35 to \$6.40. Mediums, \$6.00 to \$6.20; heavy packers, \$5.50 to \$5.90.

Sheep—Receipts, 30,000. The early prices on bulk were firm on choice. Lambs, dull and 10 to 15c lower.

HOME SALES.

Rexroat & Smith sold Wm. Rexroat 22 mixed at \$3.50; Jos. Blackburn, 22 yearlings at \$27 each.

J. D. Hembrough brought 75 feeders from Missouri.

POINT.

The annual election of Sunday school officers took place last Sunday afternoon at Wesley chapel. The following officers were elected for the ensuing year: Superintendent—Miss Clara Ranson. Assistant superintendent—J. W. Richardson.

Secretary—Miss Georgia Sturdy. Treasurer—Fred Megginson. Organist—Miss Cora Megginson. Chorister—Mrs. J. W. Richardson.

Last Saturday evening while Mr. and Mrs. J. Van of Jacksonville were visiting at the home of J. Vasey, their horse broke loose and ran away. The surrey and harness were completely demolished. The horse was not found until Sunday morning.

Mrs. Belle Mawson and family spent Sunday at the home of Robert Hembrough, east of Jacksonville.

Mrs. Mary Branham is on the sick list. Mr. and Mrs. Charles Middleton spent Sunday in the Point neighborhood.

CHAPIN RURAL.

C. E. Rexroat is to move to the property across the street from the M. P. church in Concord.

John Detrick, of Mason City, has been the guest of his cousin, Daniel Detrick, for a few days. Judge Detrick is under the weather these days.

John Alderson and Mrs. G. H. Nergenh are reported on the sick list with grip.

John Filson is in Hutchinson, Kan., on business.

Jacob Hoover has a new telephone which is connected with the Chapin-Concord wire.

F. M. Henderson's condition shows no improvement. He is pleased to see all his old friends.

F. G. Brown is to return to his home tonight (Monday). His father is about the same.

I. E. Woodward, the Journal's former correspondent, was at home the last of the week.

Rentschler and wife have a new son, born Tuesday, the 15th. Miss Carrie Nergenh is recovering from her attack of typhoid fever. The Journal's rural scribe is under obligations to George Perib, Sr., for a basket of large fine peaches. Our father was also remembered in a similar manner. Many thanks, Mr. Perib.

MURRAYVILLE.

Harvey Shepley attended the M. E. conference at Quincy last week.

Lloyd Sals will attend Illinois college at Jacksonville this winter.

Walter Haines, of Franklin, has bought the barber shop and taken charge.

Miss Maud Ryman, of Hallsville, Mo., was visiting her aunt, Mrs. J. L. Wyatt, last week. She will attend Jacksonville Business college this winter.

Miss Johnson, of Jacksonville, was the guest of her friend, Miss Irene Wade, this week.

Reid and Mr. and Mrs. G. L. Ash in this place.

The Ladies' Aid will meet with Mrs. Angelo Thurdaw after noon.

Edward Norman, of Winchester, was visiting Mrs. Annie Ealey this week.

E. W. Cunningham will have a large stock sale at his farm, south of town, Tuesday, Sept. 23. About 25 head of cattle, hogs, horses, calves and shoats will be sold.

Ed Ash, of Pontiac, is visiting his parents and other relatives here this week.

TELEGRAPH MEN BUSY.

The telegraph offices did a rushing business Monday handling the reports sent to the Chicago and St. Louis papers by the staff correspondents who were handling the county convention. The Western Union sent 13,300 messages, while the Postal handled about 4,000. The largest amount to any one paper went to the Tribune, 4,000 words. Joe Pine had all of his extra help at work and everything got out of the office here on time. This is the largest amount of telegraph matter sent out in one day since the Barnes poisoning at the Central Hospital, when 22,000 words were used.

A NATURAL RESULT.

It is very reasonable to suppose that if the foundation of a structure was removed that the building itself is bound to come down. This same principle can be applied to disease. Take away the cause of sickness, and the illness leaves of itself. Dyspepsia, indigestion, sickheadache and biliousness have their foundation in stomach troubles. Remove this weakness and the other symptoms are no more. There is one cure for this that all druggists sell for 50c per box, it is called Dr. Gunn's Improved Liver Pills. They get right at the beginning of these diseases and make the cure by taking away the cause of it. We will send a small box free by mail, on a large box on receipt of \$2. Address Dr. Gunn, Philadelphia, Pa.

LITTLE DAMAGE DONE.

By Recent Frost—Weather Conditions Favorable—Splendid Corn Harvest Now Generally Predicted.

The crop and climate report of the Illinois weather bureau for the week ending Monday issued Tuesday says the corn of Illinois was not injured by the frost and cold of last week and that in two weeks all of it will be out of danger. This statement is based upon hundreds of reports received from correspondents of the bureau. The bulletin says:

The week opened warm with temperature considerably above the seasonal average; there was a decided fall in the middle part culminating in light to heavy frosts on the mornings of the 17th and 18th, in the central and northern districts; the temperature rose rapidly the latter part of the week. Except in portions of the southern district, where rain is still needed, the distribution of rainfall was quite general throughout the state. In portions of the northern district the fall was heavy, and considerable damage to grain in shock and stack ensued.

Corn passed through the cold spell practically unscathed. While some fields in the lowlands were touched by frost, the damage was slight. Many correspondents state that the effects of the frost will be beneficial, tending to hasten the ripening of the crop. Reports indicate that the bulk of the crop will be entirely safe in two weeks. Some sowing has been done, and the work will be in active operation over a large area during the ensuing week.

Plowing has progressed and considerable wheat and rye have been seeded, but the work was retarded on account of wet condition of the soil.

The excellent state of pastures is generally remarked. In the southern district, where grass had deteriorated improvement is noted. The wet weather has delayed clover hulling. Broom corn and cow peas are being harvested, but no expression with regard to yield has been received. Stock is in good condition.

In some localities gardens were nipped by frost. Potatoes will probably yield a light crop; considerable complaint of rotting is made. Mesquite reports indicate a fine sweet potato output.

Apples continue to drop and the outlook is for a very light crop of inferior quality. There is a good supply of grapes.

Central Illinois counties make the following reports:

Crawford—Light rains during week and cooler weather, with heavy frost morning of 18th; the frost will have the effect to hastening the maturity of corn, but may have injured late garden truck and melons; early planted corn curing nicely; pastures improving; clover seed reported light yield; winter apples half crop.

Fulton—Light frost morning of 18th; no material damage; a great deal of the corn is very green and some will not harden; plowing practically finished; clover seed poor; apples still dropping; good winter apples will be scarce; potatoes, sweet and Irish, short crop.

McDonough—Latter part of week cloudy and cold; light frost 18th—no damage; early corn safe; late corn will be safe Oct. 1; seeding delayed by rains; some wheat coming up nicely; potatoes very good; apples half crop.

McLean—Rains on 14th, 15th and 16th; frost night of 17th; corn was not damaged much by the frost on account of the wet condition of the ground; week very cool and wet; pastures good; stock in fair condition; fall plowing finished.

Mason—Frost morning of 18th with temperature of 38; late corn but slightly injured thus far; some seeding commenced; fine crop of sweet potatoes; melons fine crop; increased acreage of wheat will be sown.

Montgomery—Heavy rains during week; light frost, but no damage; corn doing well; early will soon be out of danger from frost; too wet for clover hulling; but little wheat will be sown in this vicinity.

Moultrie—Week cool and rainy with heavy frost night of 17th; some damage to late corn and to broom corn; dry, warm weather needed; corn well advanced and in good condition; pastures fine; plowing in progress; clover threshing about over; good yield.

Peoria—Frost Wednesday and Thursday nights; temperature reached 37 degrees morning of 18th—opinion of farmers that corn was not injured materially; two inches of rain Monday evening; pastures improved; farmers beginning to feed fodder; stock being fed with new corn.

Pike—Heavy rains the early part of week delayed plowing and the maturing of corn; rye coming up in fine condition; pastures green as in spring; fair crop of clover seed.

Sangamon—Frost morning of 18th killed tops of turnips, but probably did not damage corn; clover cutting in progress; good crop and plenty of seed; fall plowing about finished; some potatoes dug; good quality, fair crop.

For a bilious attack take Chamberlain's Stomach and Liver Tablets and a quick cure is certain. For sale by all druggists.

PLAN TO DEVELOP JEWS.

International Move For Physical Improvement of the Race.

Preparations are being made for an international convention to further a movement for the physical improvement of the Hebrew race, says the New York Herald. Prominent Hebrews in all countries are expected to participate and furnish funds. It is believed that much can be done by establishing athletic clubs and grounds in all large cities of the world.

A national organization known as the Maccabean league will serve as a nucleus for the international movement. The first of the athletic clubs projected is to be established on the east side of New York, near East Broadway. Mr. Mason, secretary of the Janitors' society and who is a leading officer of the Maccabean league, says the clubhouse will have 400 wardrobes.

"We are now," said Mr. Mason, "in communication with Hebrews in European countries who will co-operate with us in the movement. The Maccabean league is a military organization formed by Hebrews, and its members are one and all in favor of aiding the physical improvement as much as they possibly can."

"Such men as Jacob H. Schiff and Street Cleaning Commissioner Woodbury have been interesting themselves in the Janitors' organization, and we believe we can also interest them in the physical improvement movement. We have already approached several public men, who have assured us that they will do all in their power to aid us. We are having success with the Maccabean league to such an extent that we feel encouraged to start in with the organization of the athletic clubs, which can serve as headquarters and drilling places for the local lodges of the league."

"I think that in Europe we can create enthusiasm for our movement and that many national conventions can be arranged. Physical improvement is of the utmost importance to the Hebrew tenement house dwellers, and it will do no harm for those of the wealthy and middle classes to co-operate with us. The plans for the international agitation, of course, will have to be formulated at our international convention, which is soon to be held."

"The majority of Hebrews in this country are engaged in the manufacture of clothing and other indoor trades and in commercial and other pursuits which do not require physical exertion, and the race is likely to deteriorate unless something is done to improve their physical condition."

MANUAL TRAINING IN INDIA.

Ceylonese Scholar Has Sent Equipment For The First School.

Angarika H. Dharmapala, Ceylonese Buddhist scholar and delegate to the world's congress of religions during the Columbian exposition, is in Brookline, Mass., as the guest of Edward Atkinson, after several years' absence from America. He is seeking to interest philanthropists in industrial education for the neglected children of India, says the New York Tribune. He said:

"I was impressed with the truth that India's children need the industrial, nonsectarian education given to pupils at your Tuskegee and Carlisle schools, in arts, domestic sciences, farming, dairying, weaving and other manual occupations. The first school I will establish will be at Renares, with branches in agriculture, laundry work, carpentry and other occupations. I have purchased and shipped the equipment and will complete my work with the engagement of an instructor in agriculture."

"If the work fulfills expectations, Dharmapala has assurance of \$10 from

SUBSTITUTE FOR SUGAR.

New Plant of Remarkable Sweetening Qualities.

The agricultural department at Washington is inquiring into the statement of Consul General Richard Guenther that a new plant has been discovered in South America which promises to supplant the sugar cane and the sugar beet, says the New York Times. Scientifically the plant is known as the Eupatorium rebandum, and it contains a large amount of saccharine matter and a high percentage of natural sugar properties which are easy to extract.

According to Mr. Guenther, a lump the size of a pea will sufficiently sweeten a cup of coffee, as the product made from the plant is from twenty to thirty times sweeter than cane or beet sugar. It is said to be easily cultivated in countries having climatic conditions similar to those of the southern portion of the United States.

Medals For King Victor Emmanuel.

Victor Emmanuel, king of Italy, will pay his postponed visit to Paris between Oct. 12 and 16 next, says the New York Commercial Advertiser. Great preparations are being made for his coming. As he is well known to be an enthusiast in numismatics, fifty fine medals will be presented to him. Some of these are of great historic value, ranging from the days of Richelieu to those of Carnot, Faure and Loubet. A few of them commemorate happenings in Italy, such as the restoration of Venice. A special medal will be struck in his honor.

New Appeal to Alpine Tourists.

The Swiss Alpine society has been trying for some time to persuade all guides to insure their lives, but with only partial success. It now appeals to all tourists to engage only such guides as are insured, in order to prevent the wretchedness caused by the death of uninsured guides who have a family to support.

MISS SARAH FINLEY,

Vice-President of the Palmatio Club, Memphis, Tenn.

WINE OF CARDUI

is a thoroughly scientific and modern remedy, meeting the needs of the modern woman in the modern way—without the torture of an operation. Wine of Cardui has cured them in the privacy of their homes and it is found in place in the homes of American women.

Its other medicine has found. In their gratitude over 10,000 American women have written letters commending Wine of Cardui. Wine of Cardui meets their needs as no other medicine does. It maintains the young girl at the peak of her nature to womanhood.

Women who take Wine of Cardui have little discomfort during pregnancy and little pain at childbirth. When the change of life comes they enter a happy, healthy old age. Every month it comes to the rescue to assist Nature in throwing the impurities from the body.

Miss Sarah Finley, of Memphis, Tenn., vice-president of the Palmatio Club of that city, speaks for herself and many friends who she bestows the

following praise on Wine of Cardui:

"Among the numerous medicines placed before suffering women for their relief, none can match the Wine of Cardui. It cures all the ailments of women, such as, irregular menstruation, nervousness, headache, dizziness, etc., and it is the highest praise I can give it is a great well-deserved."

If you are suffering from female weakness Wine of Cardui is the medicine you need.

You can have health the same as Miss Finley if you will take the Wine of Cardui treatment. If you need advice further than the complete directions given on the bottle, address The Ladies Advisory Department, Chattanooga Med. Co., Chattanooga, Tenn.

A million suffering women have found relief in Wine of Cardui.

HOUSEHOLD CARES

Tax the Women of Jacksonville the Same as Elsewhere

Hard to attend to household duties with a constantly aching back. A woman should not have a bad back, and she wouldn't if the kidneys were well. Doan's Kidney Pills make well kidneys. A Jacksonville woman who endorses this claim:

Mrs. M. Griffin, of 1135 South East street, says: "For two or three years I was subject to heavy aching pains through my loins and kidneys, frequent headaches and spells of dizziness. I could not rest comfortable and in the morning when first getting up I felt really worse than when I went to bed. The kidney secretions were irregular and deposited a heavy brick dust sediment. I was advised to get Doan's Kidney Pills at Dr. H. Lee Hatch's drug store and did so. I used them in a short time I was thoroughly relieved."

"For sale by all dealers. Price 50 cents a box. Foster-McMurray Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute."

THE PROPER TREATMENT FOR A SPRAINED ANKLE.

As a rule a man will feel well satisfied if he can hobble around on crutches two or three weeks after spraining his ankle and it is usually two or three months before he has fully recovered. This is an unnecessary loss of time, for in many cases in which Chamberlain's Pain Balm has been promptly and freely applied a complete cure has been effected in less than one week's time and in some cases, within three days. For sale by all druggists.

SURE CURE FOR PILES.

Itching Piles produce moisture and cause itching, this form, as well as Blind, Bleeding or Protruding Piles are cured by Dr. Bosanko's Pile Remedy. Stops itching and bleeding. Absorbs tumors. 50c a jar at druggists, or sent by mail. Treatise free. Write me about your case. Dr. Bosanko, Philadelphia, Pa. For sale by Leo P. Alcott.

A NEW JERSEY EDITOR'S TESTIMONIAL.

M. T. Lynch, editor of the Philadelphia Record, writes: "I have used many kinds of medicines for coughs and colds in my family, but never anything so good as Foley's Honey and Tar. I cannot say too much in praise of it." J. A. Obermeyer, City drug store.

HIS LIFE SAVED BY CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.

"B. L. Byer, a well known cooper of this town, says he believes Chamberlain's Colic, Cholera and Diarrhoea Remedy saved his life last summer. He had been sick for a month with what the doctors called bilious dysentery and could get nothing to do him any good until he tried this remedy. It gave him immediate relief," says B. T. Little, merchant, Hancock, Md. For sale by all druggists.

A TEXAS WONDER.

HALL'S GREAT DISCOVERY.

THE MATRIMONIAL RECORD.

COX-SPAINHOWER.

William P. Cox, of Pisgah, and Miss Lucy Ethel Spainhower were united in marriage Tuesday noon at the parsonage of Rev. R. F. Thrapp, pastor of the Christian church of this city. The ceremony was performed by Mr. Thrapp in his usual impressive and happy manner in the presence of a few of the immediate friends of the contracting parties. Mr. and Mrs. Cox are young people highly esteemed in the community where they have resided, and they will live on a farm near Pisgah, where they will have the best wishes of friends for their happiness and prosperity.

WHEELER-M'CALL.

Charles E. Wheeler, of Springfield, and Miss Margaret Frances McCall, of this city, were married Tuesday morning at 11:30 o'clock by Rev. J. F. John at the Trinity Episcopal church.

THE DEATH RECORD.

MILLEN.

Mrs. Mary A. Millen, aged 87 years, died of old age Tuesday afternoon at 2 o'clock at the home of Mr. and Mrs. A. Roe, in Chapin.

She had resided in this county for seventy-five years and enjoyed an extensive acquaintance throughout the county, where she was well known, having lived to see many changes take place and many people come and go from this community.

The funeral will be conducted from the M. E. church at Chapin Thursday morning at 10 o'clock. Interment in Caldwell cemetery. An obituary will appear later.

D. A. R. MEETING.

The first meeting of the James Caldwell chapter, D. A. R., was held with Mrs. W. C. Cole at the south annex of the Central Hospital for the Insane Tuesday afternoon at 2 o'clock. A large number of the members were present. The subject was "Reminiscences," and a very nice program was given. The society is indebted to Miss Elsie Layman for a very delightful musical program.

STOMACH TROUBLE.

"I have been troubled with my stomach for the past four years," says D. L. Beach, of Clover Nook farm, Greenfield, Mass. "A few days ago I was induced to buy a box of Chamberlain's Stomach and Liver Tablets. I have taken part of them and feel a great deal better." If you have any trouble with your stomach try a box of these tablets. You are certain to be pleased with the result. Price 25 cents. For sale by all druggists.

FOOT BALL.

College Eleven Out for First
Practice—Seven of Last
Year's Team Here.

The first foot ball practice of the Illinois college eleven was held on the campus Tuesday afternoon. Fifteen men lined up for the first scrimmage, among the number being seven members of the team last year. This certainly is a good nucleus to build around, and from the material on hand it is expected to have a cracking good eleven on the hill this season. Goebel, one of the star half-backs of the '02 team, was out to the practice and will probably assist some in coaching the backs this year.

Calloun had charge of the squad yesterday, but he will be assisted in developing the eleven by Messrs. Willis and Stoops.

The following is the list of old players back this year: Harmon Brothers, Cowden, Brown, Eilers, Schermhorn and Brockhouse. The others who lined up yesterday were: Wemple Brothers, Vieira, Covington and Stickle.

A meeting of the board of athletic control was held Tuesday evening and plans for the season's work were informally discussed. Newton Wylder, '04, is manager of the team and the captain has not yet been elected, but a selection will be made this week.

The first game will be played with Winchester Saturday at Winchester. The first home game will be played at West Side park Thursday afternoon, Oct. 1, and the opposing team will be from Shurtleff college. On the day of this game the citizens on the streets leading to the ball park will be asked to decorate their homes with the college colors, white and blue, and it is possible a foot ball parade may be held.

WOODSON.

Mr. and Mrs. Elmer Horton and family and John Calhoun left here last Tuesday for Spokane, Wash., where the former expect to make their home.

Mr. Bird, of Kansas City, is the guest of Mr. and Mrs. Wm. Ketter for a few days.

Mr. and Mrs. Will Schofield and family, of Lynville, and Mr. and Mrs. Reuben Shumaker and family, of Jacksonville, spent Sunday with Mr. and Mrs. Lewis Baughman.

Charles Hester was called to Greenfield last week on account of the illness of his uncle.

Oliver Henry, who is employed as conductor on the C. & E. I. railroad, is at present taking a vacation and is spending a few days at home with his parents, Mr. and Mrs. John R. Henry.

Mr. and Mrs. Clarence Boston, Sam Boston and Miss Mary Harrison, all of Jacksonville, spent a pleasant day Sunday at the home of Mr. and Mrs. Amos McGinnis.

Miss Clara Henry had the pleasure last Sunday of entertaining her father, John Marsh, of Jacksonville and her brother, Charles Marsh, of Minneapolis, Minn.

The burgo and supper given at Colton's hall on last Thursday evening by the Christian church, was a decided success both socially and financially.

Miss Emma J. Spainhower and Charles A. Taylor, both of this place, were married at the parsonage of Rev. R. F. Thrapp, pastor of the Christian church of Jacksonville Wednesday afternoon at 4:30 o'clock. Only a few of the intimate friends and relatives of the contracting parties were present.

Lawrence Craig, living east of here, had his leg broken Wednesday evening, Sept. 16, about 7 o'clock by a kick from a horse. Dr. G. W. Miller was called and set the injured limb and the patient at last reported getting along as well as could be expected.

Frank Mawson returned home last Saturday from Eureka Springs, where he had spent a short time for his health.

The funeral of Charnick Dinwiddie was held at the home of his parents last Wednesday at 1:30 o'clock p. m. and was conducted by Rev. S. A. Glasgow and Dr. G. W. Miller.

The ladies of the Christian church of Woodson will serve burgo soup in the church yard next Saturday, Sept. 28, beginning at 4 o'clock p. m.

A. A. Curry, of Pisgah, shipped two car loads of cattle to Chicago Tuesday.

W. D. McCormick went to St. Louis Tuesday.

L. P. Baughman, of Murrayville, was in our town on business the first of the week.

NOTICE.

All accounts on Dr. Buckthorpe's books are now due and payable. Please pay the amount in the office during the doctor's absence.

"Clothes Don't Make the Man"

COPYRIGHT 1903
MICHAELS, STERN & CO.
ROCHESTER, N. Y.

WELL, perhaps not altogether, but they frequently go a long way towards it. Haven't you noticed how much better you have felt when well dressed, when you had on a good looking, well fitting suit, how much better able to face the world as a man; in other words, how much more manly you felt?

It is always so; you can approach a man on business with far more assurance, and you will make a stronger impression on him when you are correctly dressed. Many a man has begun his upward career in business with a smart suit of clothes, and if you buy the right kind, they don't really cost so much.

We are showing all the new fashion ideas for autumn wear. The largest and most complete line of

Men's Fine Suits and Overcoats Ever Shown in Jacksonville.

It's surprising what a really high grade suit can be bought for now at

\$10, \$12, \$15 and \$18

Don't run into trouble. See that your new suit bears the label of quality.
